1 Installation guide  
1 Camera, 1 power adapter  
Mounting accessories

<b>Red (Status LED)</b>	<b>OFF:</b> The device is not powered
	<b>LAMBENT:</b> The device is powering
	<b>SLOW:</b> No network connection
	<b>STEADY:</b> Connect Wi-Fi successfully
<b>Blue (WiFi LED)</b>	<b>OFF:</b> The device is powered 5 minutes but not connect Wi-Fi yet
	<b>SLOW:</b> Not connect Wi-Fi
	<b>QUICK:</b> The device is connecting Wi-Fi now
	<b>STEADY:</b> The device has connected Wi-Fi already

### Easy Set Up

#### Step 1 Download

- Go to the App Store or Google Play to search and download "Wansview" APP to your supported device.

Or scan the QR code below to get the app.

#### Step 2 Power on camera

- Power for the camera with the included power supply and place it near your router(within 3 feet).

#### Step 3 Connect to network

##### Add camera onto the App

- Verify your smart device(iOS or Android) is connected with a 2.4G WiFi network
- Launch the **Wansview** app, Click ⊕ to access Add Camera page and select "Add cameras via WiFi Configuration Guide"

- Scan the QR code on the back of the camera, and name the camera. Then "Next"(keep "admin" as login name and "123456" as the default password)

- Input correct WiFi password and "Next", then the camera will try to connect, if connected, "Add success" appears, and it will go back to the Camera page, and shows "online". If it fails to connect, please tap "try again" and repeat the process for 2-4 times. The whole process should be finished within 5 minutes of powering on. Otherwise, the camera should be unplugged and powered back.

#### Tips

- Wi-Fi name and Password should not contain special characters 'and &.
- Your smart device (mobile phone) must be within 3 feet from the camera during configuration.

Note: When the camera shows "online", you can move it to other place that has a good wifi reception.

#### Step 4 View Live video and Edit Camera

- Once your camera is online, you can view live video and enter to the Edit Camera page to do more settings according to the below picture.

- Always remember to change your password, tap the > and then access to Edit Camera Page, get into Advanced Setting then User Settings, change password and click ✓ to save.

#### FAQ:

- If the night vision stops working, please turn on the IR light as below:
- If you forgot the password, hold the "Reset" button around 15 seconds, then the camera will be back to factory default. Default User/password: admin/123456. Remember to configure WiFi again after the Reset.

### LET US KNOW WHAT YOU THINK

Thank you so much for your order and trust to Wansview. Please feel free to contact us if you have any questions about the product application.

As a young and growing company, it would mean the world to us if you could leave an honest review about our product and services.
